

TUXEDO™ RENTAL SHOE

PREMIUM LOOK. VALUE PRICE.

ELEVATE YOUR RENTAL SHOE EXPERIENCE—WITHOUT THE PREMIUM PRICE

The new value-priced Tuxedo™ rental shoe delivers improved durability, comfort, and style, making it easy for centers to upgrade from legacy low-end footwear without stepping into premium-tier pricing. Designed with the end user in mind, every detail—from fit to feel to the Velcro-only design—focuses on enhancing comfort and wearability. The result is a longer-lasting, higher-value shoe that creates a better experience for every guest who steps onto the lane while helping leave a more positive, modern impression of your facility.

Built to Last. Designed to Perform.

At its core, Tuxedo™ is engineered to extend product life and reduce replacement cycles. Material upgrades, including microfiber uppers and an improved heel liner, enhance durability while delivering more consistent performance over time.

Designed for Today's Bowling Centers

Tuxedo™ is purpose-built for operators balancing performance, durability, and cost control.

- Field-tested in high-traffic environments
- Validated through extended wear testing cycles
- Designed to double the lifecycle of traditional value-tier shoes
- Mid-tier durability at value-tier cost
- Reduces replacement frequency vs entry-level shoes
- Backed by a 1-year global warranty for U.S. customers

The Bottom Line

Tuxedo™ Rental Shoes deliver a clear, measurable upgrade:

- Longer-lasting performance compared to legacy value models
- Improved comfort and fit for a better guest experience
- A modern, premium-inspired appearance
- Strong return on investment—without premium pricing
