

EDGE

STRING

THE AMAZINGLY
SIMPLE WAY TO
OFFER BOWLING

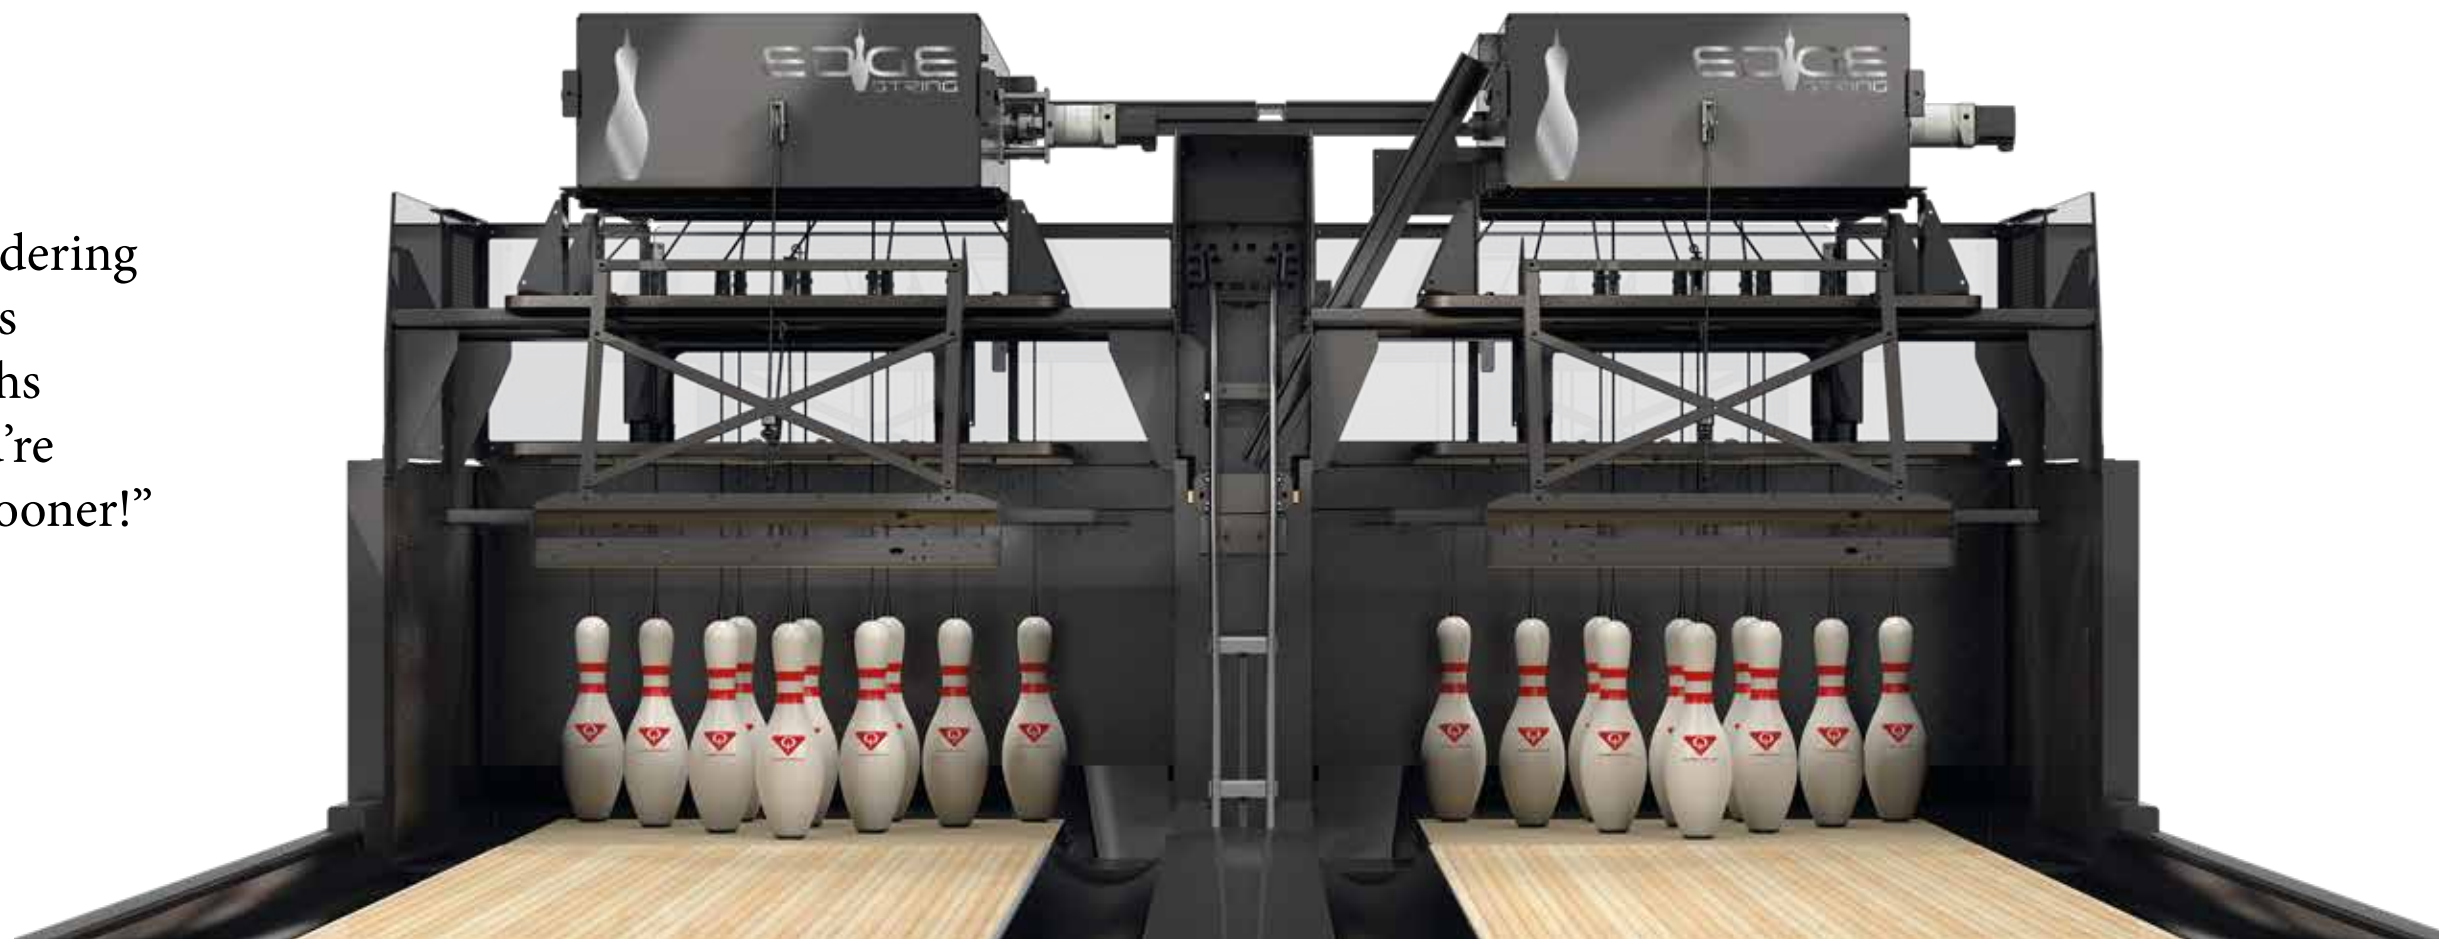

Say Hello to **EDGE String**

The #1 Selling String Machine in the World

“

My advice to any proprietor considering a switch to EDGE String machines is to just do it. Two or three months down the road after you do it, you're going to say, man, I wish I did it sooner!”

Will Mossontte
Owner
Empire Bowl, CA

EDGE String® is the next generation in string pinspotter technology, combining revolutionary electromechanical design with intelligent software to deliver a single solution that seamlessly handles both certified sport competition and recreational bowling. This advanced pinspotting system enables bowling centers to serve all customer types, while dramatically reducing operating costs.

Say hello to a new era of bowling – where finding qualified technicians is no longer a nightmare, your pinspotters don't break down for extended periods, and lanes stay open. An era where your business saves thousands of dollars per lane every year and delivers an exceptional on-lane experience for all types of bowling play.

EDGE String

The amazingly simple way to offer bowling

- **Amazing Experience**
- **Simple Operation**
- **Exceptional Performance and Quality**

**EDGE String is the
official string machine
of the PBA**

“

I was very impressed
when I first bowled
on the USBC-
Approved EDGE
String machines.
Almost immediately
after that I ordered
EDGE String for
my center.”

EJ Tackett
PBA Bowler with 27 PBA titles and
2024 PBA Player of the Year
Owner, EZ Bowl, Bluffton, IN

share their
experience on
EDGE String

Amazing Experience

As the only string machine approved by the three major governing bodies, EDGE String is proven to deliver an amazing bowling experience. Pins are placed consistently on spot, deadwood is eliminated, bowlers can set shots on demand for practice, and its USBC-Approved design delivers pin action in-line with traditional free-fall machines.

The Certification Leader

Only EDGE String has been approved by the three major sanctioning bodies within the sport of bowling – the PBA, USBC and IBF, making it the ideal choice for all levels of competitive play*.

Full Coverage Pin Shield

Completely hides the pins and strings from view when the machine cycles.

Dark Pit Area

Hides the strings and highlights the pins during play.

CenterPunch Player Responsive Deck Lights

Integrates with Conqueror and BES X to respond to on-lane events, delivering an incredibly visual and engaging bowler experience!

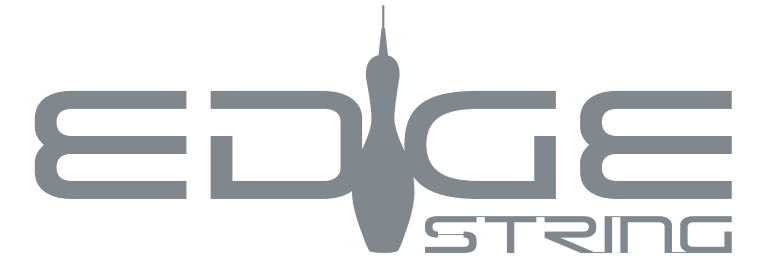

* Two versions of EDGE String are offered. Centers desiring PBA and USBC approval must purchase the USBC-Approved version of EDGE String.

“

The experience that we’ve had has been so phenomenal. We can’t imagine it getting any better. It’s comforting for us to know the quality we get from QubicaAMF on these EDGE String pinspotters. They’ll save you time, money and anxiety. They’re virtually stress-free.”

Steve Sherman
Lane Maintenance Manager
Cedar Bowl, UT

Simple Operation

EDGE String’s simple, robust design means any member of your staff can be easily taught to operate it and it requires very little servicing.

Simple to Learn, Easy to Use

Staff are typically comfortable with basic operation and maintenance within a few hours.

Low Maintenance

Robust design and only three adjustments—with gauges built in so you know they are done right. Plug & Play Design makes replacing components quick and easy.

One-Touch Controls

Intuitive, icon-based interface with reliable push buttons puts control at your fingertips. Automatic software updates through BES X, or the MCU app, keep things current with the latest features and functionality.

Safety in its DNA

Get the best safety features of any string machine and peace of mind for you and your employees. 100% Rear-operation, integrated guarding, and tool kit are included.

“

The Tech Wizard smartphone app is brilliant! Center teams now focus fully on our customers instead of dealing with pinspotting machine issues, and the bowling experience for our customers has never been better.”

Carl Boylan
Group Technical Manager
Hollywood Bowl, UK

Simple Operation

Tech  Wizard

Your staff never has to think about EDGE String because Tech Wizard will notify & provide guidance when attention is needed.*

Real-Time Operational Alerts

Informs if there is ever a stop in play, what the issue is, and what to do, all while keeping your bowlers updated on the scoring monitors.

Maintenance Notification & Guidance

Notifies when it's time for service, what is required, the tools and time needed and shows how to do it through instructional videos.

Staff Training Resource

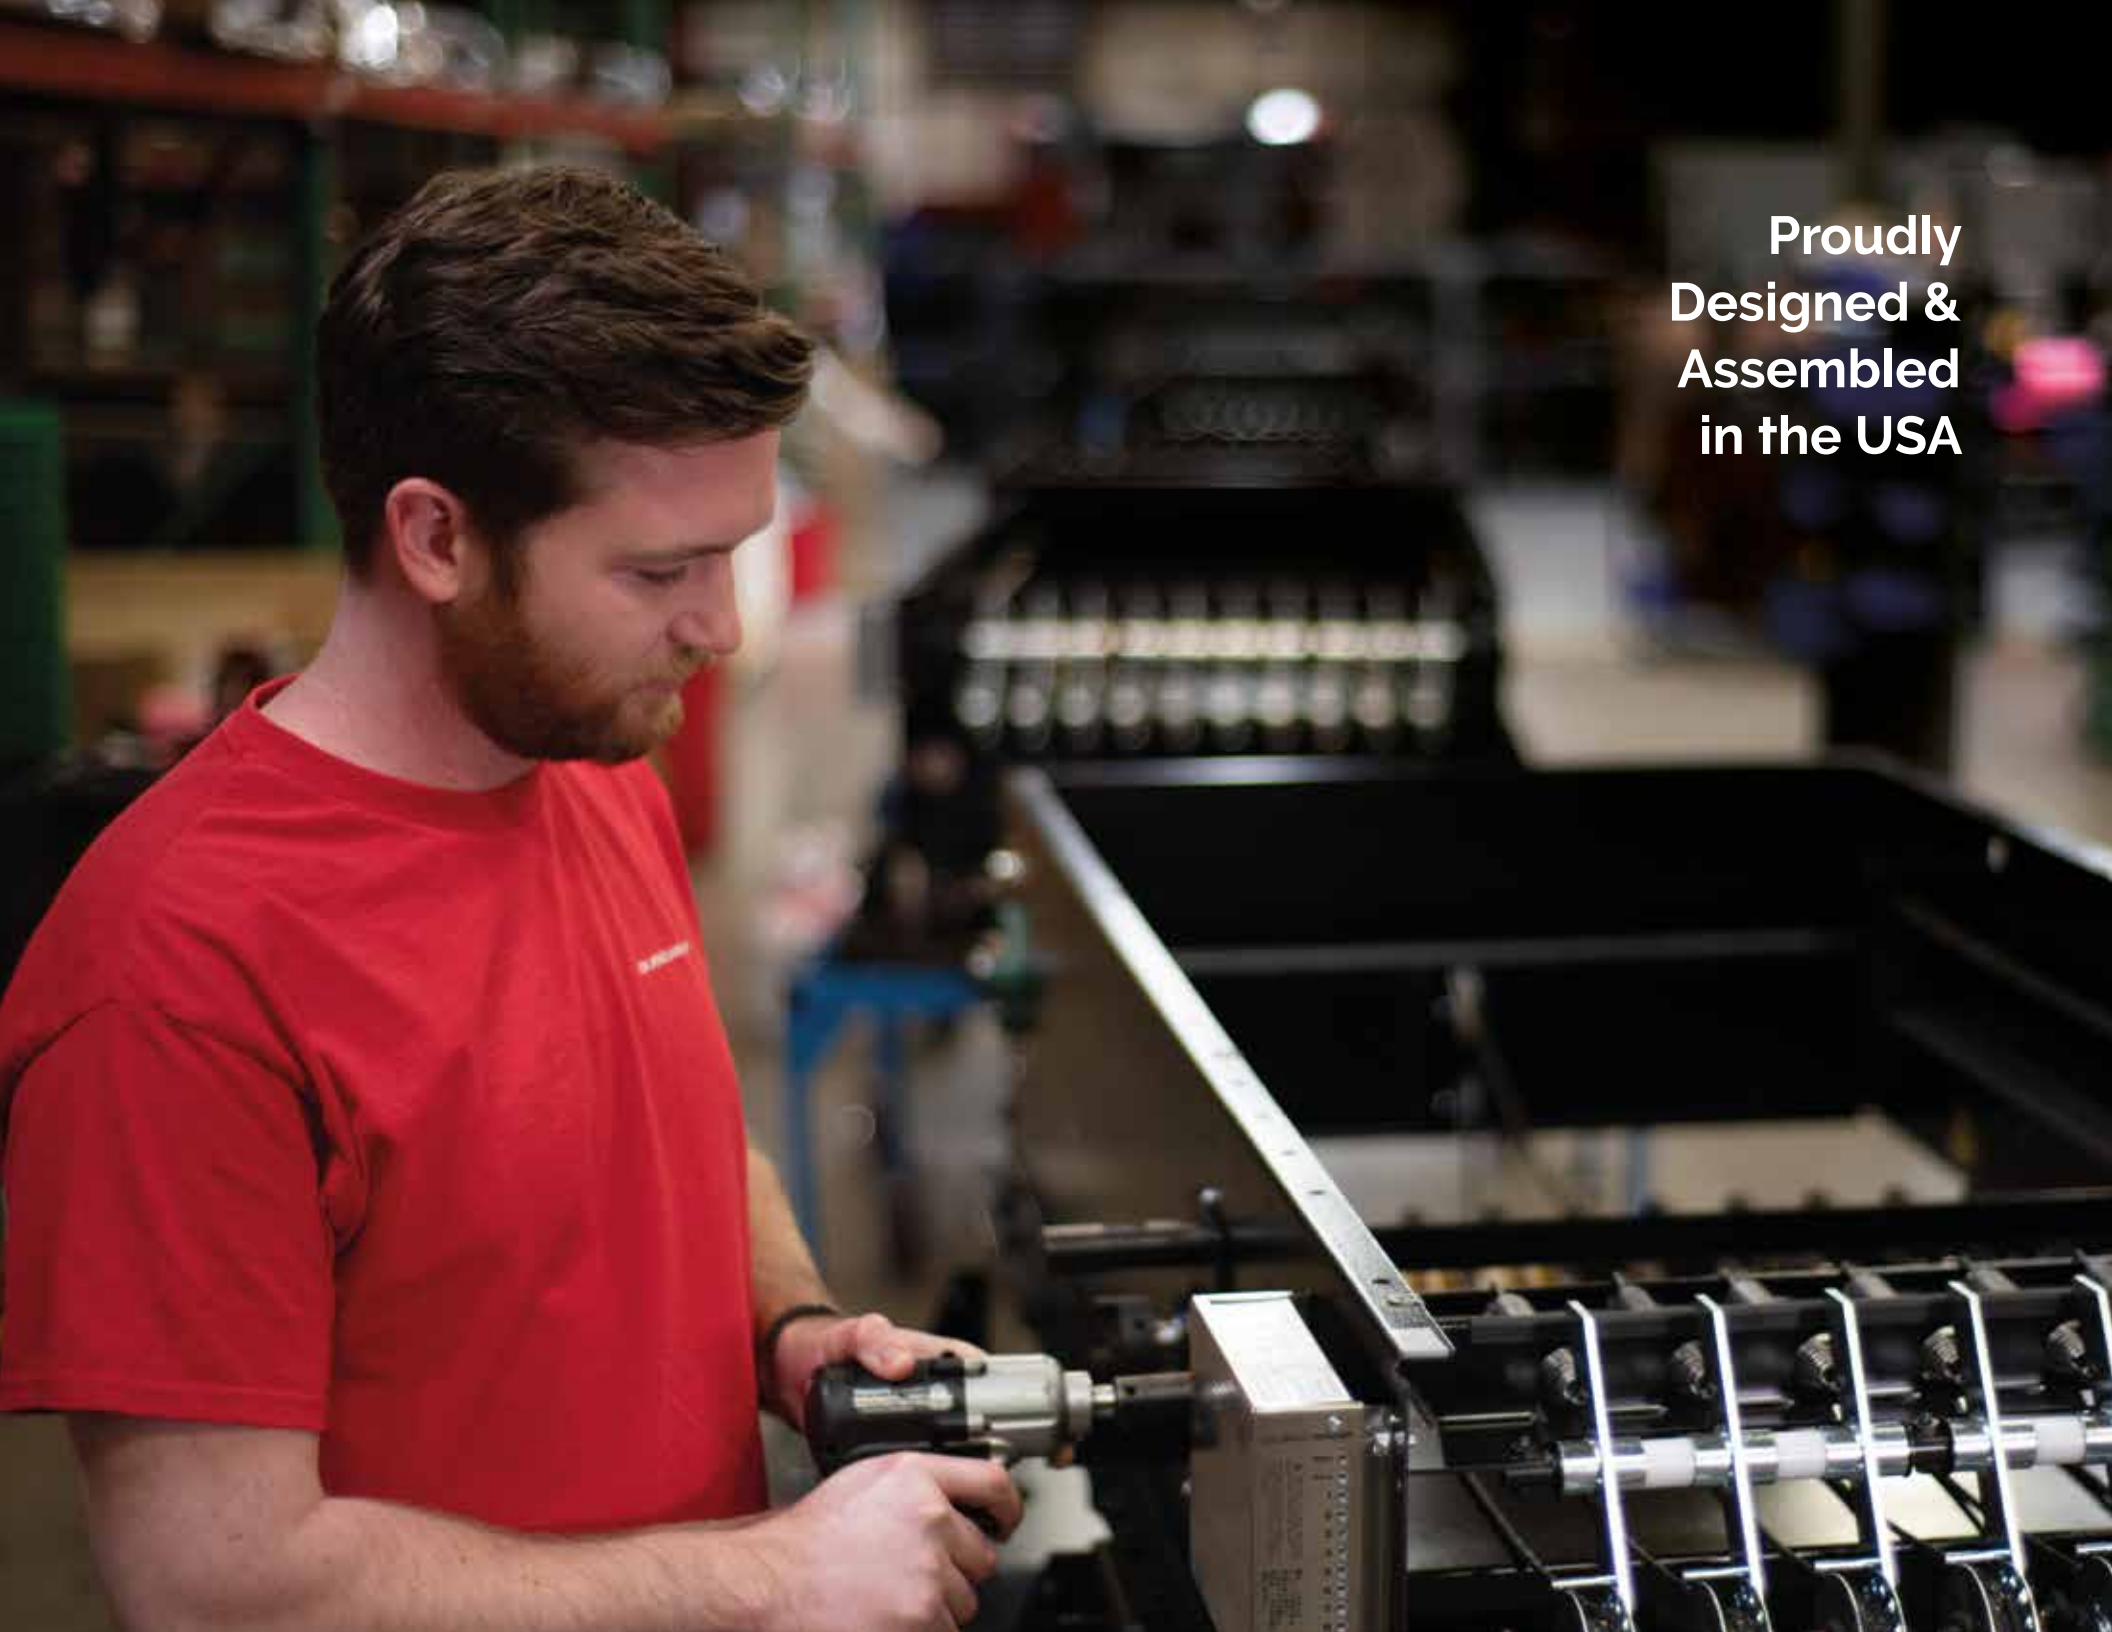

Instructional video content in Tech Wizard is a great reference and learning tool for your staff.

Cloud-Based Management Tools

Performance data, service history, and reporting capabilities are at your fingertips from anywhere.

* Tech Wizard functionality requires Conqueror X, any tier, with Conqueror Maximization Program (CMP).

Proudly
Designed &
Assembled
in the USA

Exceptional Performance & Quality

Assembled in the USA, EDGE String combines revolutionary electromechanical design with intelligent software, delivering exceptional performance and reliability, while dramatically reducing operating costs.

Ultra-Low Energy Consumption
State-of-the-art 24V DC electronics and drive technology results in each machine using less power than a typical coffee maker. The energy needed to brew one pot of coffee can run EDGE String for three hours.

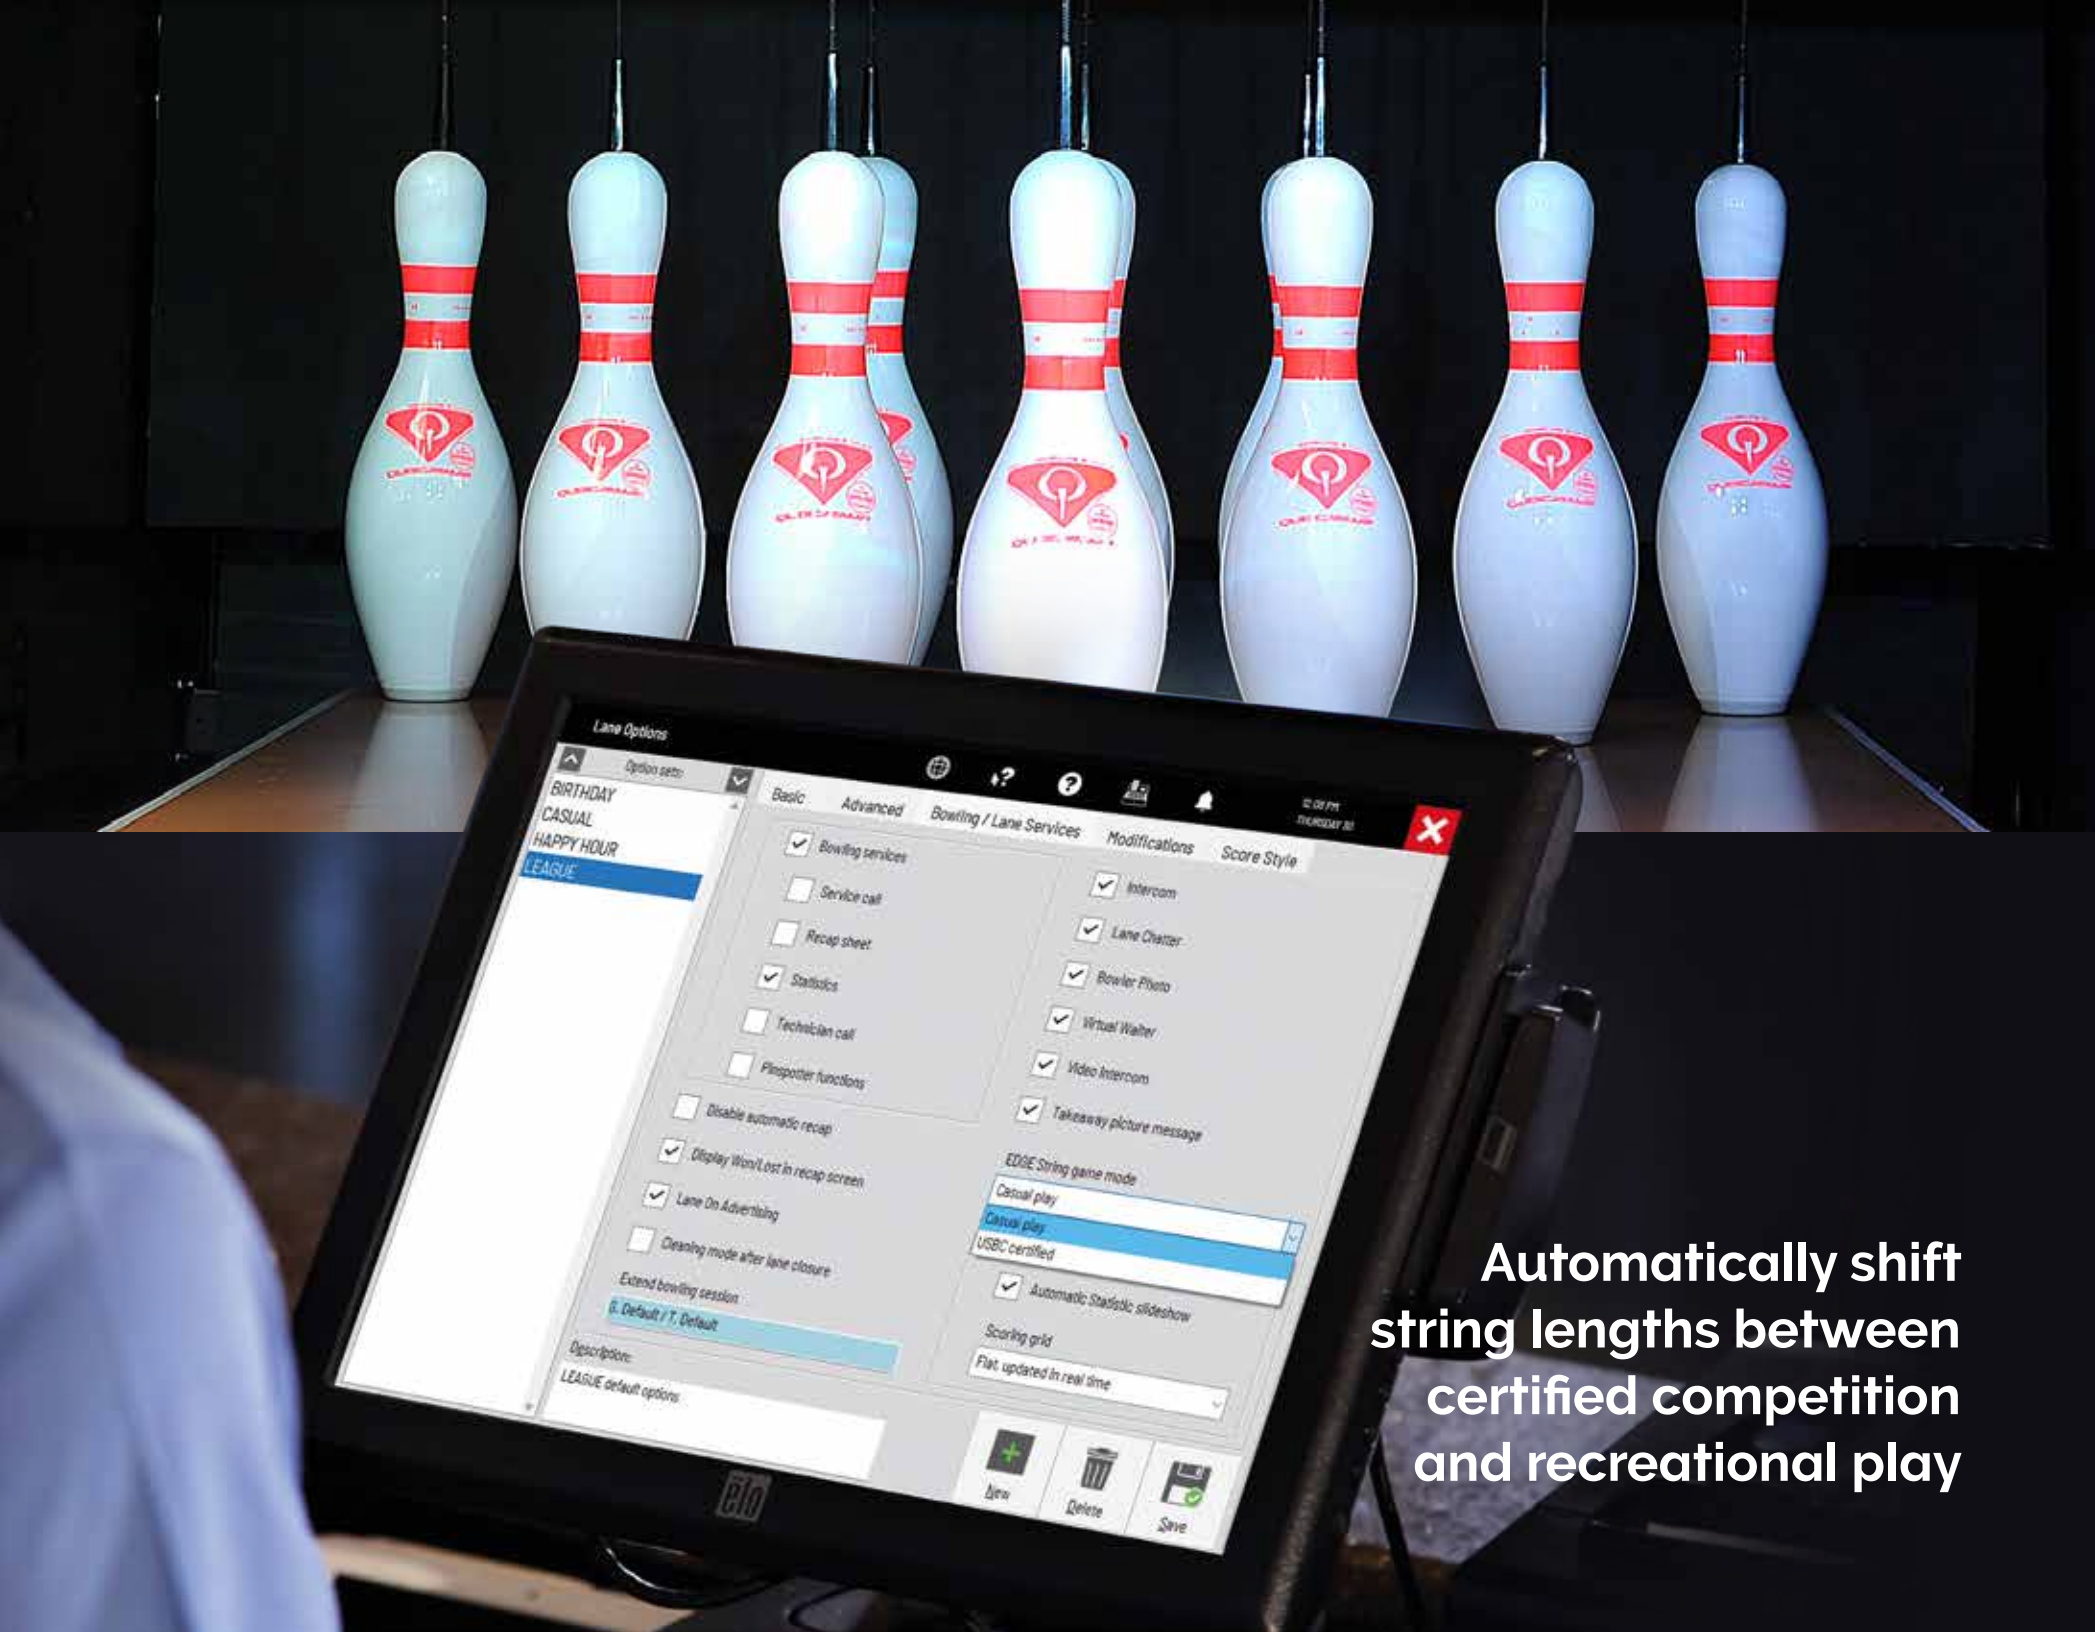

Proven Design, Quality Construction
Robust design, assembled in the USA with high-quality components. EDGE String will do battle with bowlers in high-lineage centers for decades—and win!

Performance String Sleeve
Reduces the occurrence of pin tangles so bowlers keep rolling.

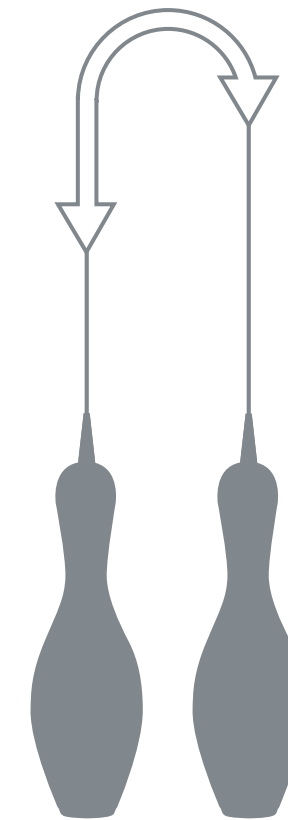

Dual-Action Pin De-Tangler
Intelligent software detects tangled pins and drives effective de-tangling routines that resolve the vast majority of tangle occurrences quickly and without the need for staff intervention.

Automatically shift
string lengths between
certified competition
and recreational play

Exceptional Performance & Quality

Adaptive String Length Technology PATENTED

EDGE String is the only USBC-Approved string machine that seamlessly operates at two different string lengths. Our patented Adaptive String Length Technology* automatically adjusts string length based on the type of bowling play, ensuring optimal performance for every situation.

Certified Competition: Host USBC and PBA-Approved sport competition and leagues at the required USBC string length with full certification compliance and industry-leading frames-per-stop performance.

Recreational Play: Strings automatically shorten for even better frames-per-stop performance during casual and non-certified competitive play.

Unrivaled Ease of Use: The Conqueror X system provides automated control while displaying real-time string length status on the main screen, giving staff complete visibility and control.

* Adaptive String Length Technology is exclusive to the USBC-Approved version of EDGE String and requires BES X and Conqueror X (v14.65.01 or higher).

“I understand the hesitance to switch to string machines, but EDGE String is the best decision a proprietor will ever make.”

Rick Novak, Owner
Royal Family Bowling Center, VA

Transformative Investment
